

AIR PURIFIER

BY NOVOFLOW

DATA SHEET NF-808

air purifier NF-808	
description	technical data
6-stage structure	pre-filter, HEPA 13, activated carbon filter, photocatalytic filter, negative ion generator* and UV-C sterilization* (*switchable)
usable space for living areas	up to 105 m ² (depending on number of people and room volume)
usable space for business premises	up to 53 m ² (depending on number of people and room volume)
noise level (dB A)	33/37/43/54 (level 1-4) in average normal operation. normal operation, the air purifier runs in the 1st or 2nd stage
air flow volume	420 m ³ /h
CADR	ca. 1100 m ³ /h
anion concentration	5 million (service life > 20,000 hours)
timer	1/2/3/4/5/6/7/8/9 hours
power	26.3/62.8/76 watts (level 1-3 without UV-C and anion) 30.2/66.8/80 watts (level 1-3 with UV-C and anion)
UV output	4 W
UV wavelength	254 nm (switchable)
UV service life	8000 hours
current voltage	230 V & 50 / 60 Hz
product size	37 x 22 x 65 cm
accessories	remote control, app control possible, 1.5 m mains cable and operating instructions in german
